

Scatter Rally

2009 Championship

2009 Scatter Rally Championship

From May-September 2009 a Scatter Rally Championship will be held in conjunction with the other Scatter Rallies in Skåne.

During these rallies championship points will be collected by the driver, co-driver, and vehicle.

In September your highest 3 scores will be added together and a Champion selected for:

- Driver
- Co-driver
- Vehicle

Competitors can choose between the Scatter Rally and Roadbook Rally at each event. Championship points from either will be the same.

Championship points earned at each rally will be from 0-100 based on the percentage of points received.

Due to the format and layout of the Scatter Rally, all vehicles have an equal chance of winning, no matter their age or engine capacity.

Be sure to check the planned rallies on the web site to find out which ones count towards the Championship.
